REV 10/04

2/13
2004

July 13, 2005

In Re the Application of:

PIERMATTEI

Serial No.: 09/802,852

Filed: March 9, 2001

Atty. File No.: 4690-1

For: "ATTACHMENT DEVICE FOR KEYS AND OTHER ITEMS" (as previously amended)

Please amend the abstract of the above-identified application as

AMENDMENT TO THE ABSTRACT

An attachment device for attaching, e.g., a key ring is disclosed wherein the device facilitates the reversible attachment of various connecting means, such a device having a shoulder connected to a post and such post having at least one aperture running therethrough for attachment of snap hooks, rings etc. Attachment to various desired articles, preferably belts, garments, etc. is accomplished by, e.g., securing the shoulder by adhesive means or through a riveting structure, thereby allowing a post having an aperture therethrough to extend outwardly for easy access by a user. In some embodiments, the ~~key-ring-holder~~ attachment device can be loosely attached to a desired article, wherein an attachment of an item via the aperture is sufficient to secure the attachment device to the article.

REMARKS

Please replace the current abstract with the abstract hereinabove. It is believed that no new matter is being introduced into the present application with this amendment.

Respectfully,
Dennis Dupray
